

I sent this 6-1-03 to the wrong spot apparently FCC gave me this site.>>> Jerry von Behren 06/01/03 01:36PM >>>  
We are opposed to the allowance of the big media concerns to gobble up the news media. This will lead to controlled news by a few people and is in total opposition to the concept of free and independent press. We have talked to a number of people who were unaware your agency was reviewing something of this magnitude because they had no idea that the FCC was even thinking about allowing this. Please consider the viewpoints of the many who are against this FURTHER consolidation of the new media and not the just vested interests of a few. I hope this is the right site to register our opposition but if not please let us know the correct site or forward this comment for us. Thank you.
